

## **L - "100-YEAR FLOOD" ZONES**

The following map was created using data obtained from the Macomb County Planning Department. The maps shows the County's municipal boundaries, road structure, and the flood zones within the County based on a 100-year flood (or 1% chance) event. The data displayed in this map shows the flood zones and development as of the year 2000. Areas displayed include both river flooding and shoreline flooding areas.
